Performance Testing

Project Testing

Date	17 July 2026
Team ID	Not provided
Project Name	House Rent Management System (HouseHunt / RentEase)
Maximum Marks	5 Marks

Testing Overview

Field	Details
Repository evidence	No backend automated tests are configured; no frontend project test files were found.
Verification completed	Static inspection of routes, controllers, schemas, dependencies, and UI request paths.
Recommended tools	Postman/Newman for API checks; React Testing Library for UI; k6 or JMeter for load tests.
Environment	Local React client, Express API, and a disposable MongoDB database.

Required Test Scenarios

ID	Scenario	Expected Result	Current Evidence
T-01	Register renter	201 success; password is hashed	Code path present
T-02	Register owner	Owner saved with ungranted status	Code path present
T-03	Login	Valid credentials return JWT and user	Code path present
T-04	Unauthorized protected call	401 response	Middleware path present
T-05	Add property with images	Property created and images served	Code path present
T-06	Book property	Pending booking stored	Code path present; field spelling needs test
T-07	Owner books/reopens	Booking status and availability update	Code path present
T-08	Load: 25 concurrent list requests	p95 < 2s; error rate < 1%	Not executed

Honest Result Status

No performance measurements are claimed because the repository does not contain reports or a reproducible test environment. Execute the scenarios above and replace 'Not executed' with measured values before submission if performance evidence is required.
